

UTILITY APPLIANCES

COMPRESSORS | GENERATORS | WELDERS

SIMPLIFY MAINTENANCE IN THE FIELD

Thunder Creek's versatile utility appliances simplify maintenance and reduce the downtime that comes with servicing off-road machinery. These powerhouses can function as stand-alone units from the bed of a pickup or they can be installed in the rear utility box of any new Thunder Creek fuel and service trailer.

AIR COMPRESSOR

35 CFM at 100 PSI

COMPRESSOR + GENERATOR

17.2 CFM at 100 PSI

3500 Watts

WELDER + COMPRESSOR + GENERATOR

20 CFM at 100 PSI

5000 Watts

40A - 190A Variable Operating Range

AIR COMPRESSORS
45" W x 22" D x 36" H | 320 lbs.

COMPRESSOR + GENERATOR
45" W x 22" D x 36" H | 360 lbs.

WELDER + COMPRESSOR + GENERATOR
51" W x 21" D x 30" H | 375 lbs.

COMPRESSOR	<ul style="list-style-type: none">• 35 CFM @ 100 PSI• Two Stage Compressor• Splash Lubricated Cast Iron Crankcase• Cast Iron Head• Large Canister Intake Filter• Stainless Steel Braided Discharge Hose• 8 Gallons of Air Tank Storage
GENERATOR	N/A
WELDER	N/A
ENGINE	<ul style="list-style-type: none">• 389 CC Honda GX390 Gasoline Engine with Electric Start• Battery included when installed in a Thunder Creek Trailer
DESIGN FEATURES	<ul style="list-style-type: none">• 3/16" Base Plate to Reduce Vibration• 14 ga. Powder Coated Two-Piece Belt Guard• Belt tightening system pulls engine straight to ensure constant belt alignment.• Regulator and two gauges for tank and outlet pressure.• 16.5" fly wheel for extra cooling and longer life• Manual drain valves for proper maintenance.• Quality pilot valve unloader.
REEL	When installed in a rear utility box: <ul style="list-style-type: none">• 50' x 1/2" Air Hose Reel

COMPRESSOR	<ul style="list-style-type: none">• 17.2 CFM @ 100 PSI• Two Stage Compressor• Splash Lubricated Cast Iron Crankcase• Cast Iron Head• Large Canister Intake Filter• Stainless Steel Braided Discharge Hose• 8 Gallons of Air Tank Storage
GENERATOR	<ul style="list-style-type: none">• Industrial 3500 W Generator• Four NEMA 5 - 15R Receptacles, 230V Outlet• Brushless Alternator• Total Harmonic Distortion less than 5%• 100% Copper Windings
WELDER	N/A
ENGINE	<ul style="list-style-type: none">• 420 CC Rato Gasoline Engine with Electric Start• Battery included when installed in a Thunder Creek Trailer
DESIGN FEATURES	<ul style="list-style-type: none">• 3/16" Base Plate to Reduce Vibration• 14 ga. Powder Coated Two-Piece Belt Guard• Belt tightening system pulls engine straight to ensure constant belt alignment.• Regulator and two gauges for tank and outlet pressure.• 16.5" fly wheel for extra cooling and longer life• Manual drain valves for proper maintenance.• Quality pilot valve unloader.
REEL	When installed in a rear utility box: <ul style="list-style-type: none">• 50' Combination 3/8" Air Hose and Electric Cord Reel

COMPRESSOR	<ul style="list-style-type: none">• 20 CFM at 100 PSI• 10 Gallons of Air Tank Storage• Built in Unloader
GENERATOR	<ul style="list-style-type: none">• Capacitor Style Generator• 5000 Watts of Max. AC Output• 4200 Watts of Rated AC Output• 230V Twist Lock Connections (qty 1)• 110V Outlets (qty 2)
WELDER	<ul style="list-style-type: none">• 40A-190A Variable Operating Range• 150A at 100% Duty Cycle• Patented 20' Weld Leads Included• Amperage Adjustment and Maximum Amperage Boost on Electrode Holder
ENGINE	<ul style="list-style-type: none">• 429 CC Kohler Gasoline Engine with Electric Start• 3,600 RPM• Drive System: Self Cooling, Tensioning and Cleaning Poly-Link Belt• Auto Throttle Control• Battery included when installed in a Thunder Creek Trailer
DESIGN FEATURES	<ul style="list-style-type: none">• All three functions can operate simultaneously.• Electrode holder has built-in amperage adjustment knob and the ability to bypass to deliver maximum amperage with boost control button.• Powder coated twin tanks with saddle bracket base.• Cast iron air pump has 3 cylinder head design.• Automatic throttle control on engine for Compressor and Welder.• True 2 generator system allows safe simultaneous use of welder and generator.• Integrated cold weather engine provision.• Battery box included.
REEL	When installed in a rear utility box: <ul style="list-style-type: none">• 50' Combination 3/8" Air Hose and Electric Cord Reel
